Description

This 2019 Porsche 718 Cayman GTS is a refined sports car that combines performance with a practical approach to driving. Powered by a 2.5 litre petrol engine, this vehicle meets Euro 6 emission standards, ensuring it remains compliant with modern environmental regulations. With a recorded mileage of 23,914 miles, this example has covered a low distance for its age, suggesting it has been used sparingly. The driving experience is enhanced by a range of thoughtful additions, including heated seats for comfort during colder weather and a speed limit indicator to assist with road awareness. Visibility is prioritised through the inclusion of Bi-Xenon main headlights in black, which feature the Porsche Dynamic Light System and a headlight cleaning system with painted covers. The exterior aesthetic is further refined by high-gloss black side window trims and window triangle trims. Performance is a key characteristic of this model, as evidenced by its ability to accelerate from 0 to 62mph in just 4.3 seconds, offering a responsive and engaging drive that distinguishes it from many other vehicles in its class.
