Description

This 2013 Porsche 911 is a 991 Carrera 4S model that offers a blend of performance and engineering. The vehicle has covered 38,500 miles, which is a low mileage for its age. It is powered by a 3.8 litre petrol engine and features a four wheel drive system, providing stability and traction in various driving conditions. The performance of this Carrera 4S is notable, as it is capable of accelerating from 0 to 62mph in 4.3 seconds. Inside the cabin, the driving experience is enhanced by automatic air conditioning, which includes climate control to maintain a comfortable environment regardless of the weather outside. These specifications combine to create a capable vehicle that balances power with comfort, distinguishing it from many other sports cars in its class.
