Description

This 2021 Volvo XC90 T8 R-Design offers a sophisticated blend of performance and practicality, making it a versatile choice for modern driving needs. As a plug-in hybrid model, this vehicle combines a 2.0L petrol engine with an electric motor, delivering power to all four wheels through its four-wheel drive system. Inside, the cabin is finished with Nappa soft leather perforated contour sports seats in charcoal, providing a refined environment for up to seven passengers. The vehicle is well-equipped for comfort, featuring a climate pack that includes heated front seats and a heated steering wheel, alongside a Bluetooth handsfree system for connectivity. It also comes with a 7m charge cable with a 3-

pin plug, ensuring you have the necessary equipment to keep the battery topped up. The performance capabilities of this XC90 set it apart, as it is capable of accelerating from 0-60mph in just 5.5 seconds, providing responsive power when needed. Beyond its speed, the vehicle is designed for utility, boasting a towing weight of 2400 kg, which allows for significant hauling capacity. As a Euro 6 emission class vehicle, it meets current standards for environmental efficiency, balancing its high performance with responsible engineering. This combination of rapid acceleration, substantial towing ability, and hybrid efficiency makes it a capable option for those who require a spacious seven-seat vehicle without compromising on driving dynamics.
